

Meeting Minutes (Draft 1)

ASC-OP/TF3 – Wavefront Measurement

Monday, February 15, 2016, 8:30 am PST
Potrero Hill Room, Intercontinental Hotel, San Francisco

CALL TO ORDER at 8:30 am PST

A. Krisiloff, called the meeting to order.

WELCOME AND INTRODUCTIONS (Agenda Item 1)

Savvy Optics, Dave Aikens	NIST, Marla Dowell
Lockheed Martin, Dan Palmari	Northrop Grumman, Donna Howland
Self, Hal Johnson	Triptar, Allen Krisiloff

ADOPTION OF AGENDA

Motion by D. Aikens. Second by D. Howland. Passed 100%

APPROVAL OF MINUTES FROM APRIL MEETING

Motion to accept H. Johnson. Second by D. Howland. Passed 100%

OP1.004, DETERMINISTIC MEASURES

The manuscript is ready for OP level balloting. A. Krisiloff will prepare the document and conduct the voting.

OP1.005, STATISTICAL MEASURES

Peter Takacs, project leader, will incorporate a section written by Paul Murphy (QED Technologies) that outlines sources of error that customers and manufacturers should consider when agreeing upon a measurement protocol.

FUTURE PROJECTS

An asphere metrology standard has been started, but members of the task force created around that project are unable to continue. That project might be brought into the scope of this task force because it is so closely related to wavefront measurement. Further thought and discussion is needed.

NEXT MEETING

Photonics West in San Francisco, CA, in 2017.

Move/Second/Vote = D. Howland./D. Palmari./100%.

ADJOURNED at 9:18 am

D. Aikens/D. Howland/100%
