ADOPTION OF AGENDA

Motion Hal J. Second by Adam P. Passed 100%

APPROVAL OF MEETING MINUTES FROM 2017 JAN 30

Motion by Allen K. Second by Hal J. Passed 100%.

STATUS OF ISO 9211 SERIES AND READINESS FOR ADOPTION

9211-1 expect new version this year. Part 2 has been revised. Part 4 should be going through systematic review this year.

READINESS FOR ISO 10110-6 (CENTRATION) FOR ADOPTION

Mechanical drawing examples in ISO 10110-6, like all ISO standards, feature European projections in its figures. Many definitions could be adjusted. It is probably okay for adoption; although the European projection might be changed to American projections. Send comments to Ray W. for further consideration.

OVERALL ISO ADOPTION STRATEGY

Proposal: Proceed with adoption of ISO 10110-18 without modification as an American National Standard. Then proceed with as many other adoptions in the ISO 10110 series as possible.

Motion Hal J. Second Patrick A. passed 100%.
